

LEC'S NEW GROUND-EMBEDDED SPOTLIGHT

The 5727-Alicante spotlight is a new product in LEC's range, designed to light up facades, alleys or even trees. It is a flush ground-embedded LED spotlight with two adjustable plates of Ø 310 mm. It is equipped with two external separate adjustable plates of nine Superwatt LED in white with an opening lens of 10°. The 5727 Alicante spotlight offers a wide choice of lenses allowing to adapt the beam to the lighted item. This spotlight is IP68 rated, which is not affected by the adjustment screw.
