

Our *Environmental* Policy

By integrating environment into its company strategy, LEC has the will to strengthen the control of environmental impacts in its activity.

LEC commitment is based on the following points:

- Improvement of its environmental performance and its participation in the environmental responsibility effort of European industry
- Respect of its reglementary, citizens and others obligations
- Waste Control and Valuation
- Pollution Prevention
- Integration of the eco-conception in its developments

April 2009, the CEO

Jean-Pierre VALANCOGNE
