

SPOTS LUMINY 4

4039-4040

Wall-mounted & mast

LUMINY 4 is the “maxi” version of the spotlight range, offering installation flexibility. This luminaire can be floor, wall or pole-mounted, with adaptable accessories to meet your specific needs. It’s ideal for highlighting architectural heritage, or lighting pathways and alleyways with homogeneous light. It blends perfectly into public spaces to create a warm, safe atmosphere. LUMINY 4 also offers customization options,

such as powder-coating on request and anti-glare louvers for lighting control. The four-color option lets you play with colors, and its 2- or 3-axis adjustability lets you direct light precisely where it’s needed. For optimum visual comfort, a flux cover accessory is also available to control light emissions and reduce glare in sensitive areas.
